Open-ended Working Group of the Global Framework on Chemicals – for a Planet Free of Harm from Chemicals and Waste First meeting

Punta del Este, Uruguay, 24–27 June 2025
Item 3 (j) of the provisional agenda*

Global Framework on Chemicals: capacity-building

Capacity-building

Note by the secretariat

I. Introduction

1. At its fifth session, held in Bonn, Germany, in September 2023, the International Conference on Chemicals Management adopted the Global Framework on Chemicals – for a Planet Free of Harm from Chemicals and Waste. Arrangements related to capacity-building are outlined in section VIII of the Framework.
2. Section VIII provides that the International Conference of the Global Framework on Chemicals will develop a strategy for capacity-building and supporting technology transfer on mutually agreed terms, recognizing that the industries are profitable and production is growing worldwide. The strategy will include capacity-building tools and other initiatives.

II. Activities to implement the resolution

3. The secretariat of the Global Framework on Chemicals has developed a draft strategy for capacity-building and supporting technology transfer on mutually agreed terms (UNEP/GFC/OEWG.1/INF/16) for consideration by the Open-ended Working Group at its first meeting.

III. Proposed action

4. The Open-ended Working Group may wish to:

Request the secretariat, on the basis of any recommendations issued by the Open-ended Working Group at its first meeting, to finalize a draft strategy for capacity-building and supporting technology transfer on mutually agreed terms, for consideration by the International Conference of the Global Framework on Chemicals at its first session, in 2026.

* UNEP/GFC/OEWG.1/1.
